International Journal for the History of Mathematics Education:

The major aim of this journal is to provide mathematics teaching and mathematics education with its memory, in order to reveal the insights achieved in earlier periods (ranging from ancient time to the late 20th century) and to unravel the fallacies of past events (e.g., reform euphoria).

Chief Editor: Gert Schubring (Bielefeld University, Germany)

Managing Editor: Alexander Karp (Teachers College, Columbia University, USA/Russia)
