

Operation Outbreak (OO) of the Broad Institute of MIT and Harvard is partnering with the **Consortium for Mathematics and its Applications (COMAP)** to showcase outbreak science education at the National Council of Teachers of Mathematics Annual Meeting.

Mark your calendars for September 25-27, and find us at the McCormick Place Convention Center. OO will be co-located with COMAP at **Booth 719**. Come ready to quiz yourself with fun trivia, math problems, and win prizes along the way!

We'll also be demonstrating our **mobile app that simulates an unknown pathogen** on iOS and Android phones. If we get enough participants, we might spark an outbreak--our flagship simulation experience--during the conference!

If you want to see a demo of our app, come to our booth before the end of Thursday!

Collect Operation Outbreak swag at NCTM 2024:

Booth 719

- Stop by our booth for a *free chocolate*!
- Test yourself on outbreak trivia for a *free laptop sticker*!
- Follow us on social media for a *free pen*!

- Post a picture at our booth and tag us for a *free notebook*!
- Try out our "Operation Outbreak" mobile app during the conference for a *free keychain microbe*!
- Send us an email at welcome@operationoutbreak.org and receive a brand new chapter from our textbook *Outbreak Science: An Introduction to an Interdisciplinary Field*.

Privacy

The Operation Outbreak experience ensures anonymity. The app does not collect personal data, and all information is anonymized. Our Privacy Policy is available at <http://bit.ly/48th1tU>

If you have any questions or concerns, please feel free to contact welcome@operationoutbreak.org.
